

PostOpMonitor

Post-Operative Care Supporting Every Step of the Healing Journey

Smart Post-Op Care

www.acesoft.ai

Trusted Partner

Why Acesoft

With over two decades of proven automotive technology expertise, we deliver enterprise digital platforms that transform dealership service departments through intelligence, automation, and AI. Backed by ISO 9001 and ISO 27001 certified practices, we deliver excellence worldwide with a strong commitment to quality.

We don't just deliver software. We deliver operational transformation.

Global Presence

Our office spans across North America, Asia Pacific, and the Middle East, with 24x7 support, which ensures 60% faster delivery compared to competitors.

Customer Experience and Service Quality

Credibility, Dependability, & Assurance

Why Hospitals Choose PostOpMonitor

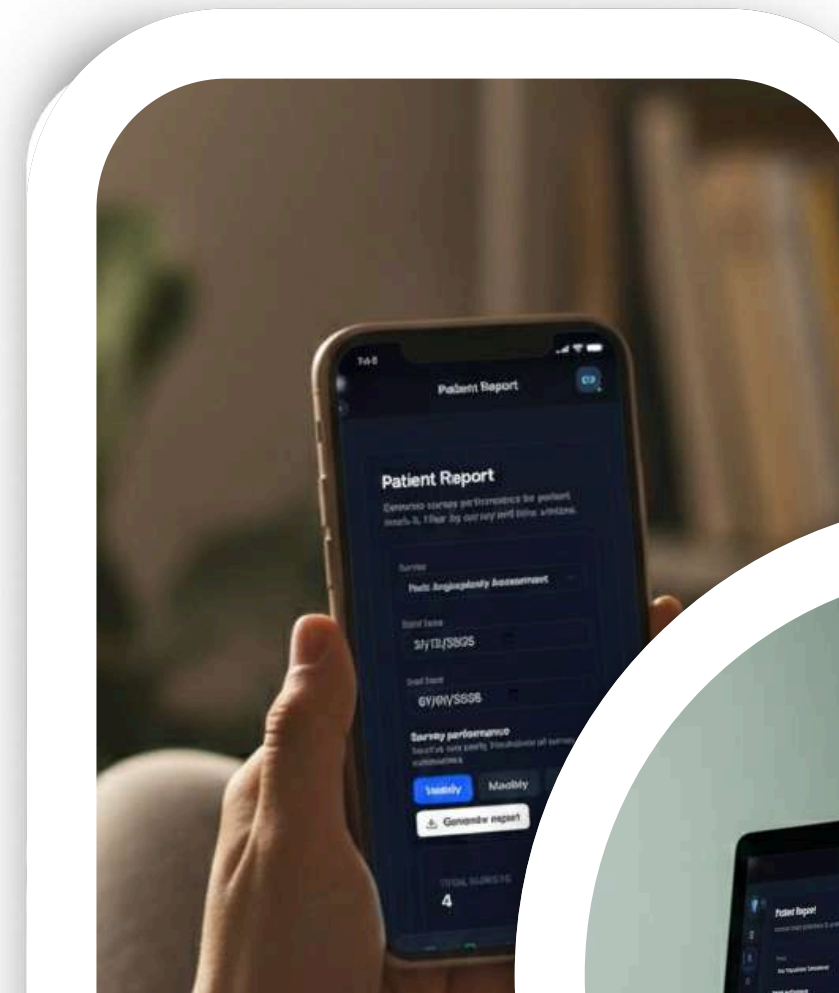

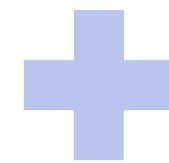

Clinical Excellence

PostOpMonitor gives hospitals a centralized, intelligent system to monitor recovery beyond discharge and detect issues before they escalate.

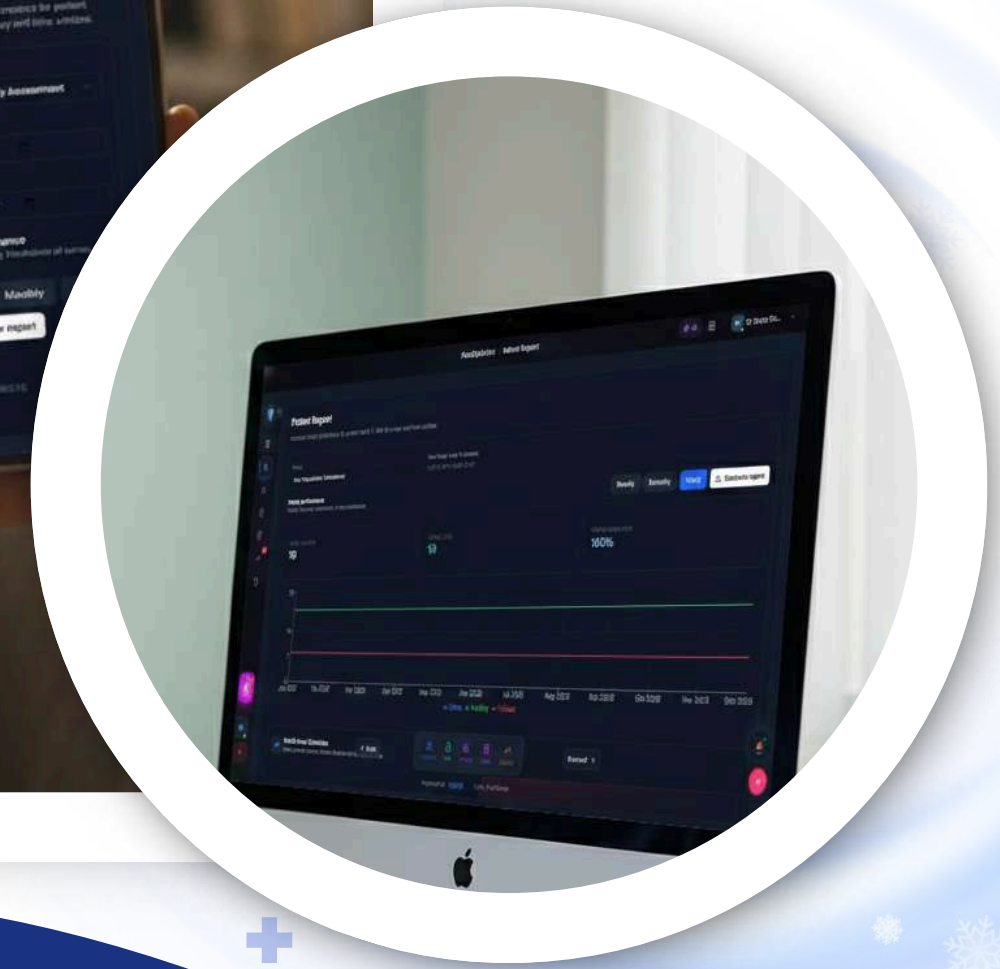

It transforms post-operative care into a continuous, data-driven, hospital-controlled process.

With PostOpMonitor, hospitals can:

- ✓ Identify high-risk patients early.
- ✓ Reduce avoidable readmissions.
- ✓ Improve surgical outcomes.
- ✓ Optimize clinical resources.
- ✓ Strengthen patient engagement .
- ✓ Enhance patient trust and connection.
- ✓ Enable real-time recovery monitoring.
- ✓ Reduce consultation time by 10–20 minutes per patient.

Personalized and Proactive Care

Key Benefits

Patient Experience & Care Continuity

Seamless Care

PROTECTS PATIENT PRIVACY

Add and manage patient profiles without exposing personal identifiable information, ensuring confidentiality and compliance.

QUICK PATIENT ONBOARDING IN SECONDS

Surgeons provide each patient with unique login credentials. Patients can instantly access the app via a QR code for a smooth, hassle-free experience.

AUTOMATED SURVEY NOTIFICATIONS

Automate survey schedules to run daily, weekly, or monthly and send friendly reminders to patients, ensuring timely responses and consistent follow-ups.

CONTINUOUS PATIENT MONITORING

Surgeons monitor patient progress on one platform, receiving automated alerts from feedback and visual reports to quickly assess stability or critical conditions.

SEAMLESS STAFF TRANSITION

When doctors, nurses, or assistants change, the new care team can instantly access complete patient information, ensuring uninterrupted care with zero complications.

Key Benefits

Clinical Efficiency & Smart Decision Support

Smarter Decisions

 **REDUCED CONSULTATION TIME**
With pre-collected data and continuous tracking, doctors gain an eagle-eye view of recovery, using clear visual graphs for faster, focused, effective consultations.

 **PATIENT-FRIENDLY MOBILE APP**
Patients can complete surveys directly within the mobile app, making participation quick, easy, and hassle-free while saving time.

 **CUSTOMIZABLE SURVEYS**
Design and tailor surveys to match specific procedures, patient needs, and follow-up goals, ensuring more relevant data and better clinical decisions.

 **REAL-TIME CLINICAL VISIBILITY**
All patient data, surveys, and activity tracking are unified in one intuitive dashboard, giving surgeons real-time insights for faster decisions and better outcomes.

 **BUILT-IN AI ASSISTANT**
AI lets surgeons and staff query patients or surveys, delivering instant answers, saving time, enhancing decisions, deployed on hospital networks without PII.

What PostOpMonitor Delivers

Measurable Outcomes

PostOpMonitor is an intelligent post-operative care platform built for hospitals that want to move beyond manual follow-ups and fragmented monitoring. It enables continuous recovery tracking, early risk detection, and AI-driven insights, so hospitals can intervene sooner, operate more efficiently, and deliver measurably better post-surgical care.

- 01 Executive & Clinical Dashboards
- 02 Early Risk Detection & Alerts
- 03 Structured Post-Op Programs
- 04 AI-Powered Intelligence
- 05 Outcome & Performance Analytics
- 06 Remote Care Enablement

Your Privacy. Our Promise

Your Privacy First

Your health journey deserves more than innovation, it deserves absolute trust. Our AI-powered healthcare platform is designed with privacy at its core, ensuring your personal and organizational health data remains secure, controlled, and respected at every step.

Our solution enables intelligent, data-driven care while maintaining the highest standards of confidentiality and compliance.

Why It Matters

- ✓ **AI-Driven Care with Privacy Built In**
Privacy isn't an add-on; it's the backbone of our technology and care model.
- ✓ **Your Data, Fully Protected**
From personal records to organizational insights, everything stays secure within our AI-enabled ecosystem.
- ✓ **Trust That Never Breaks**
Every interaction is designed to uphold transparency, security, and confidence.
- ✓ **Care Without Compromise**
Compassionate, AI-powered healthcare that never sacrifices confidentiality.
- ✓ **Well-Being Comes First**
Your health and peace of mind are protected through trusted, privacy-backed care.

01

Choose the privacy level that suits your needs.

02

Control exactly which personal details are shared.

03

No unnecessary data is ever stored.

04

Built on confidentiality and trust at every touchpoint.

05

Tailor privacy settings for full control and confidence.

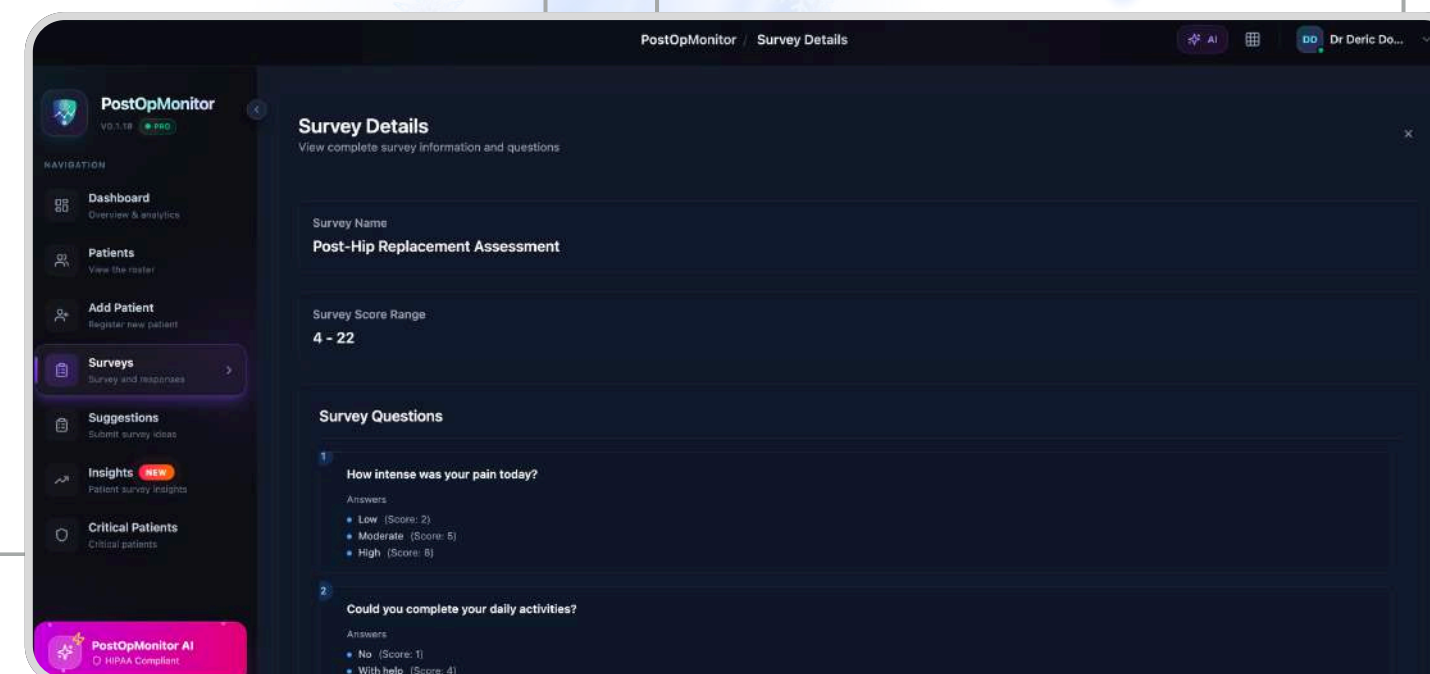

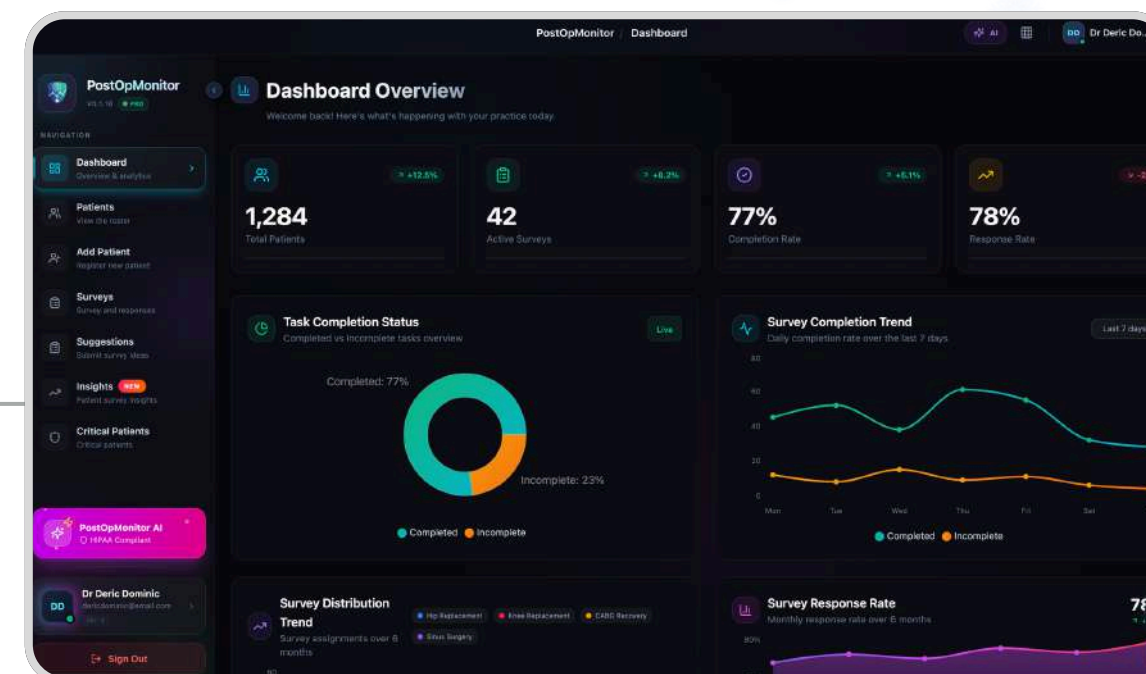

Beyond Hospitals: A Powerful Platform for Research & Clinical Studies

PostOpMonitor is not limited to hospital use. The platform is also designed to support medical research, laboratories, and clinical trial organizations by providing a secure, structured, and scalable way to collect real-world patient and participant feedback.

Ideal for Research & Trials

- ✓ **Clinical Trials & Human Studies**
Collect ongoing feedback from participants, monitor health indicators, and track progress throughout the trial lifecycle.
- ✓ **Secure & Scalable Platform**
Locally hosted, highly secure, and suitable for sensitive research environments, ensuring data privacy and controlled access.
- ✓ **Labs & Pharmaceutical Research**
Capture structured responses related to new medicines, treatments, and protocols with high data accuracy.
- ✓ **Custom Research Surveys**
Build fully customizable surveys tailored to specific studies, therapeutic areas, or trial phases.
- ✓ **Actionable Reports & Insights**
Download detailed reports with visual graphs to analyze trends, measure outcomes, and support regulatory or internal documentation.
